

# Sunlight

Place your Herbal Jar in a space that receives direct sunlight for best growth

*window sills, counter tops, and desks are all great choices!*

1

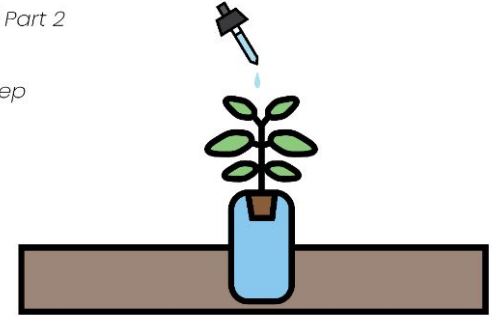

# Feeding

Use the glass droppers labeled "Part 1" and "Part 2" when feeding your Herbal Jar liquid nutrients

*Add half a dropper full (0.5 ml) of Part 1 solution to herbal jar*

*Then add half a dropper full (0.5 ml) of Part 2 solution to herbal jar*

*Repeat this process once a week to keep the plant nourished*

3

# Watering

Refill your Herbal Jar weekly or whenever the waterline falls below the center of the jar

*when refilling your Herbal Jar make sure to readd any fertilizer or cleaner that may be discarded*

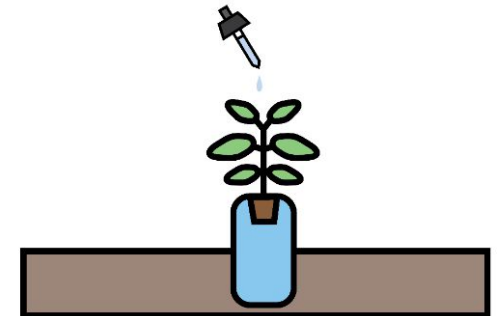

2

# Cleaning

Use the glass dropper labeled "Organic Cleanser" to protect your Herbal Jar from pests such as algae and mold

*Add one dropper full (1 ml) to your herbal jar once every 2 weeks to keep the jar and your plant clean*
